NATURA

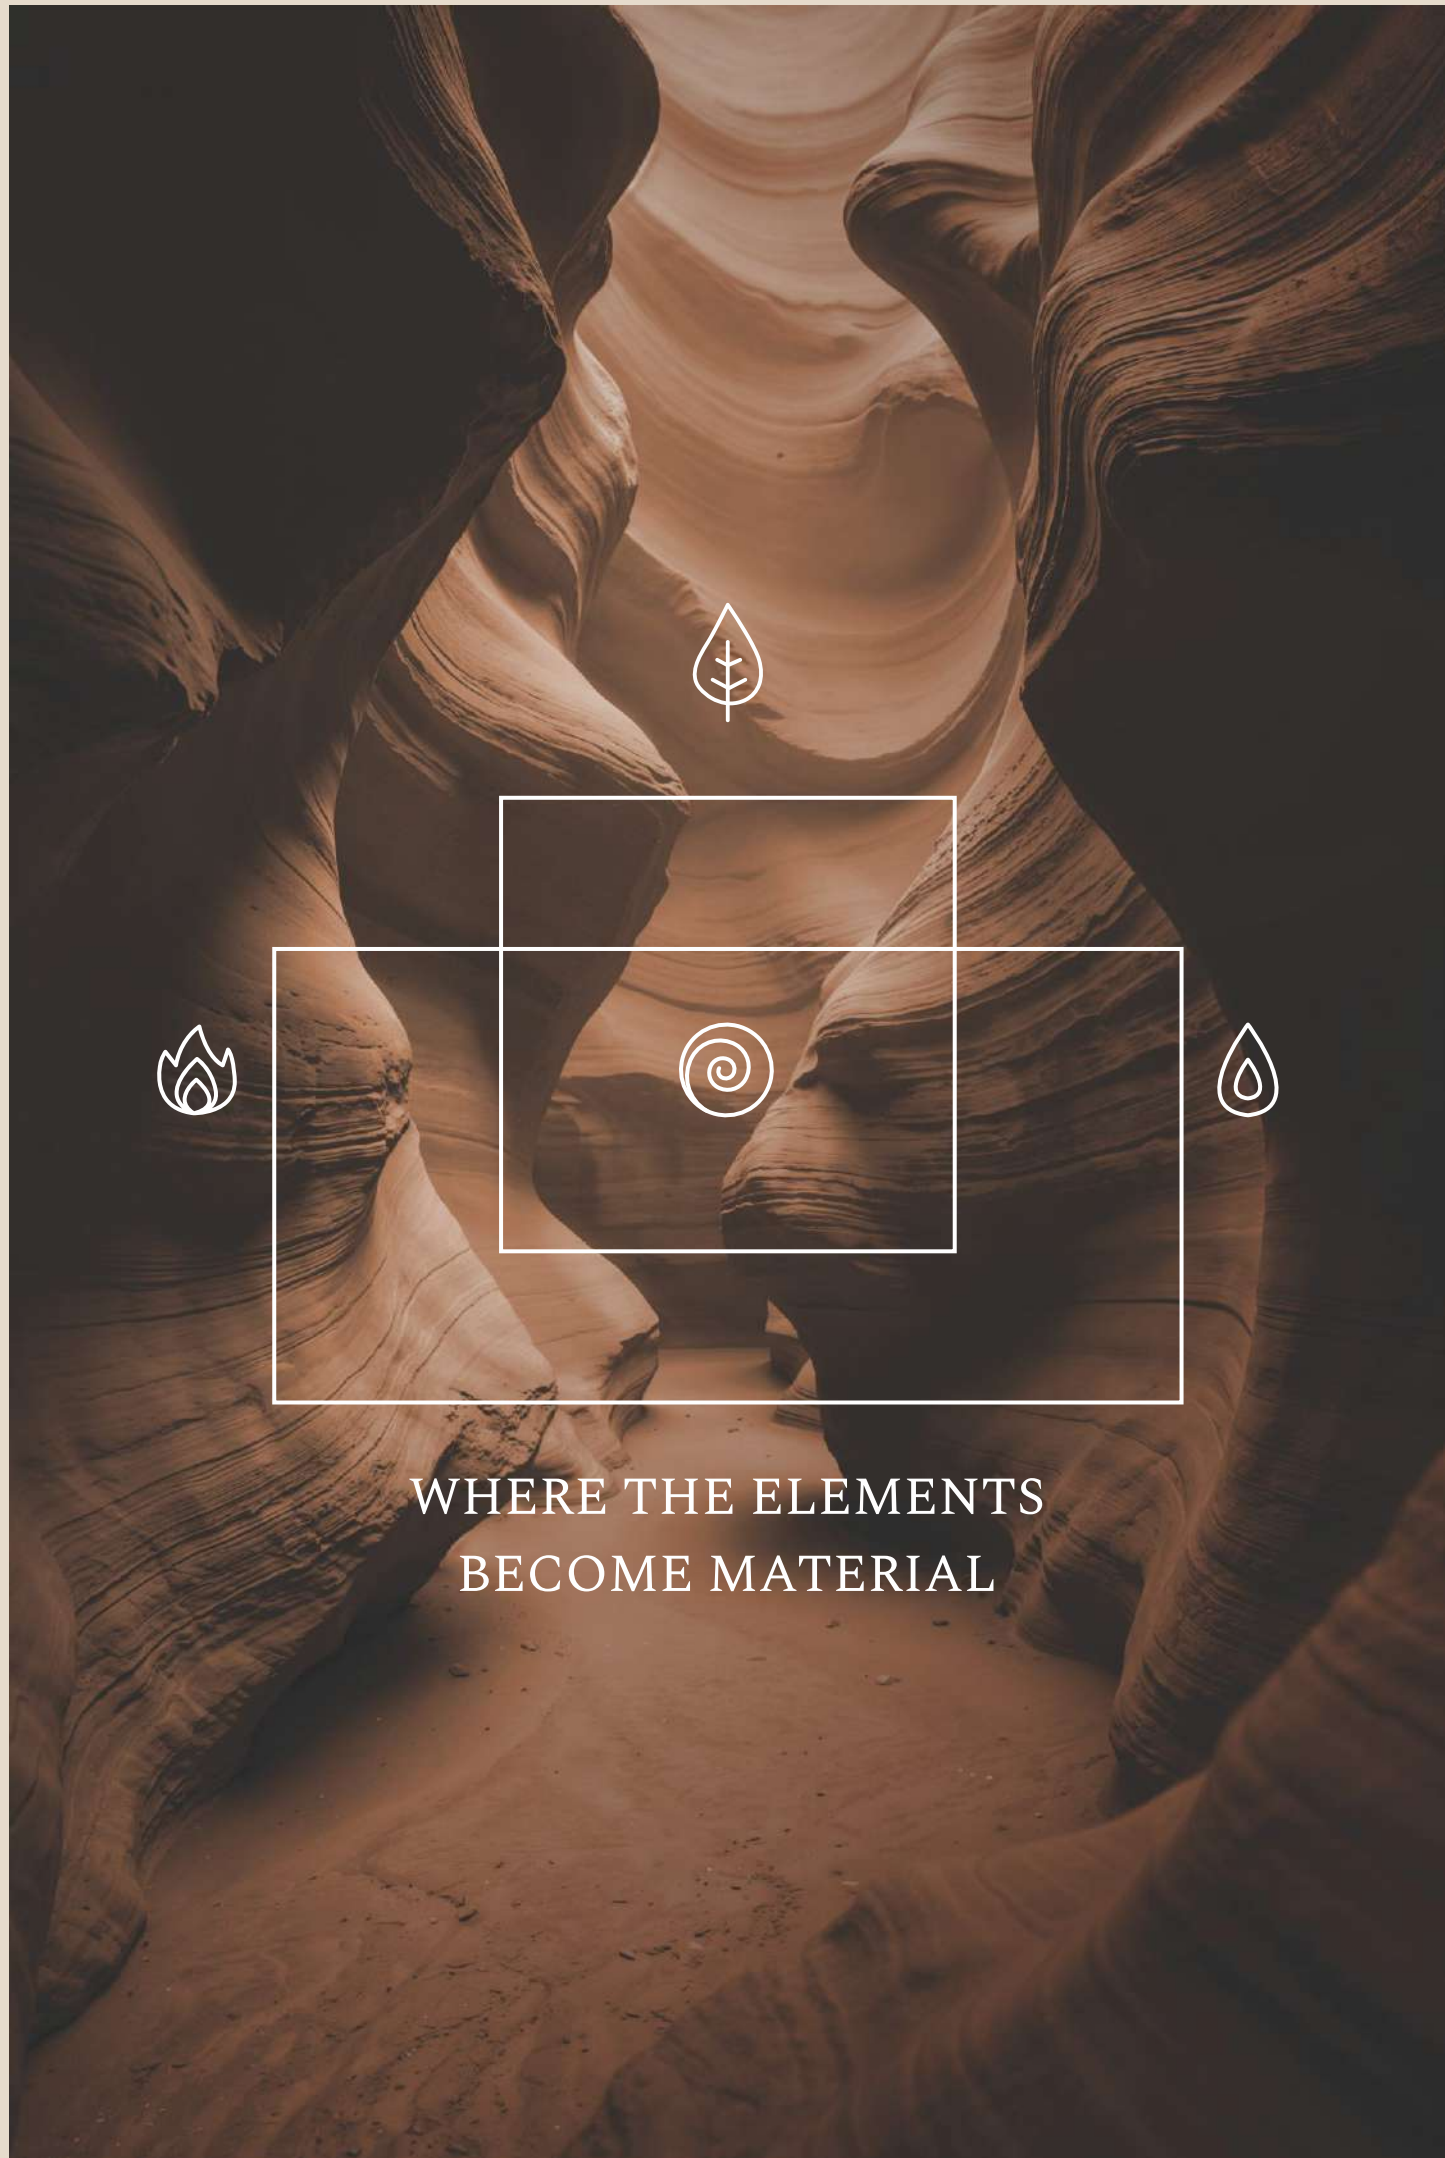

WHY NATURA?

“Nature, refined into architecture.”

Natura is a premium full body porcelain surfaces brand by ITOLI Granito LLP, dedicated to creating architectural materials inspired by nature's timeless beauty.

Every collection is developed with a commitment to material authenticity, exceptional durability, and refined simplicity. Through innovative full body porcelain technology, Natura transforms the character of natural minerals and stone into surfaces that are built to perform and designed to endure.

WHERE THE ELEMENTS
BECOME MATERIAL

EVERY SURFACE HAS
A BEGINNING.

Before architecture, before design, there were the elements that shaped our world - the materials we have always known, trusted, and returned to.

The Origin Collection draws inspiration from these raw landscapes, weathered minerals, and the quiet beauty of nature's imperfections - creating surfaces that feel authentic, grounded, and enduring.

For us, returning to honest materials and elemental forms is a return to balance, simplicity, and a deeper connection with the spaces we create.

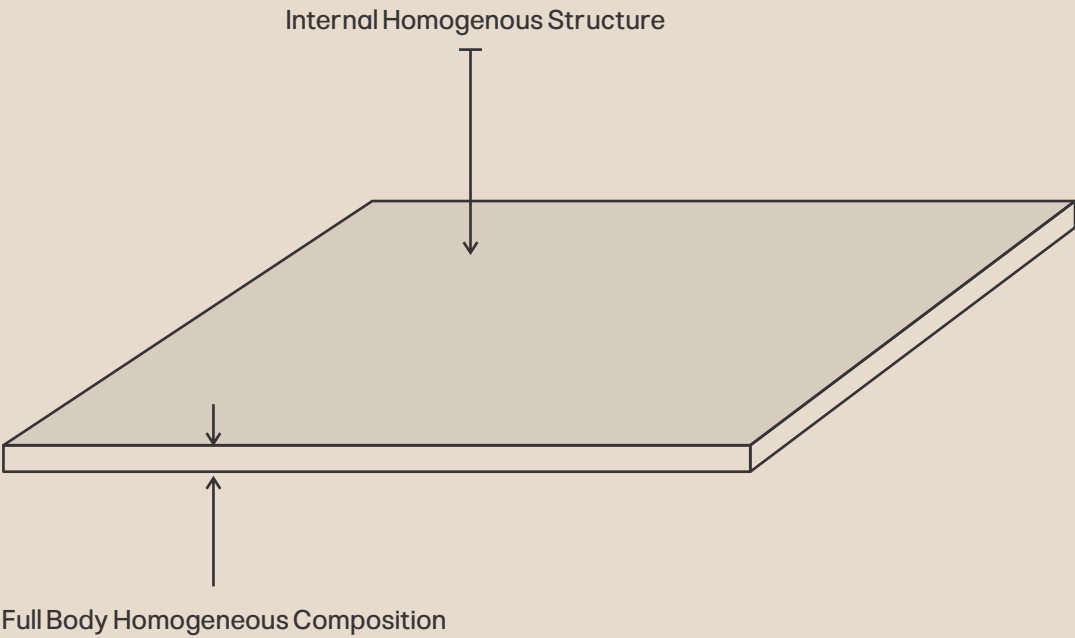

Soft mineral tones, tactile surfaces, and organic depth come together to create spaces that feel calm, balanced, and naturally familiar.

Origin is a return to what is essential - a celebration of nature's finest palette, shaped by time and refined for contemporary architecture.

NATURA TELLS A STORY OF
MATERIAL CRAFTSMANSHIP -
WHERE PERFORMANCE AND
AESTHETICS EXIST IN PERFECT
BALANCE.

ThroughCore Tech™

Engineered with a fully homogeneous porcelain
body for lasting strength, consistent colour, and
material integrity throughout the tile.

PRECISION-ENGINEERED FOR
MATERIAL INTEGRITY,
STRENGTH, AND ENDURING
BEAUTY.

ThroughCore Tech™ supports body color tone,
density, and strength through the tile body,
helping Origin deliver material continuity and
cleaner edge expression.

Here, the color, pattern, and composition run
seamlessly throughout the tile, creating a
refined, uninterrupted design. Crafted with
precision, every detail reflects seamless
perfection.

The Essence of Material.

CURATED ENSEMBLE

The Origin makes for spaces that exude architectural calm. Here, the full body surficial language conveys and how. Earthy, grounded, and yet spatially captivating, this is the essence of material objectified.

With subtle, somber, and mineral tones, feel yourself being drawn to something that feels instinctively familiar and soothing.
